

Sacramento County Business Support – Non Small Business Administration

The County has assisted over 5,311 businesses and provided \$13.1 million in direct support from CARES Act funding. (Airports, Economic Development, Environmental Management, Finance and Planning)

In response to the COVID-19 pandemic, on March 19, 2020, Sacramento County issued its first Public Health Order. Both the County directive and the State order closed non-essential businesses as well as eliminated non-essential travel. County departments immediately began efforts to provide businesses with relief programs. Examples of support in the form of assistance includes:

- **PPE Distribution Assistance:** Provided 1.5 million face coverings to businesses unable to obtain otherwise due to available supply. (Beginning May 26)
- **Building/Planning Permit Extension:** Extends certain development related approvals for projects impacted by COVID-19. (Board approved on May 5, extended June 16)
- **Economic Recovery Support:** Provides one-on-one assistance to small businesses related to funding options and economic relief program support and up to date information on State guidelines. (To date: 593 businesses assisted and 2,434 staff hours)
- **Utility Service Fee Relief:** Waive penalties and enforcement of storm drainage, solid waste collection and water use service fees for businesses and individuals unable to make service fee payments on time. (Board approved on June 2)
- **Tax Penalty Relief:** Waive penalties, costs or interest for businesses and individuals (400 to date) unable to make property tax payments on time. (State Executive Order N-61-20 approved on May 6)
- **Business License Renewal Fee Relief:** Extend the time for businesses to pay renewal license fees, with all late fees waived. (Beginning in April)

Additional economic relief efforts, including expenditures of CARES Act funding:
